CAREER OBJECTIVE

Frontend Developer focused on React, seeking to contribute to the development of scalable interfaces and seamless integration with back-end services, with a strong focus on code quality and software engineering best practices.

EDUCATION

- **Bachelor's Degree in Computer Science** | Universidade do Estado do Rio Grande do Norte - 2023-2026
- **Technical High School Diploma in Environmental Studies** | Centro Estadual de Educação Profissional Professora Djanira Brasilino de Souza - 2020-2022

PROFESSIONAL EXPERIENCE

Frontend Web & Mobile Development Intern — Dataprev

- Applied unit testing fundamentals, web architecture best practices, and basic knowledge of relational databases in solution development.
- Worked on frontend development using **JavaScript, TypeScript, Angular, React, and React Native**, including integration between frontend layers and back-end services through REST APIs.
- Developed component-based interfaces aligned with business requirements and **UX/UI** designs for large-scale, nationwide systems, including Falência, Gás do Povo, and Meu Imóvel Rural.
- Participated in code reviews, contributing to the maintenance of quality standards and software development best practices.
- Participated in requirements gathering, functional validation, and identification of inconsistencies, following best practices for code quality and organization.

English Teacher — Watford Natal

- Taught English to students with diverse backgrounds and proficiency levels, from beginner to advanced.
- Developed strong communication skills and the ability to work effectively in international and multicultural environments.
- Explained complex concepts clearly and adapted communication strategies to different learning needs.

IT Infrastructure Intern - Hospital Rio Grande

- Diagnosed and systematically resolved technical issues involving hardware, networks, and software, applying troubleshooting and severity-based prioritization.
- Documented root causes and implemented solutions through a ticketing system, focusing on traceability and process standardization.
- Created an improvement tracking repository for critical hospital emergency systems, organizing technical issues and pending tasks by priority.
- Provided remote technical support to users with different levels of technical expertise, translating complex issues into clear and actionable solutions.

SKILLS

- **Development:** Strong frontend experience with **React**, TypeScript, and JavaScript, including component-based interface development and **API integration**. Experience with **Angular, React Native**, HTML, and CSS. Knowledge of programming logic, data structures, and algorithms.
- **Design & Tools:** Figma, Adobe XD, Microsoft Office, and version control using **Git, GitHub, and GitLab**.
- **Methodologies & Practices:** Experience working in agile environments using **Scrum and Kanban**, collaborating within multidisciplinary teams. Experience with **manual testing**, focused on identifying inconsistencies, as well as **automated testing** using Maestro.

LANGUAGES

- **English:** Advanced
- **Spanish:** Intermediate
